At Livingston HealthCare, exceptional care is only possible because of the strength and generosity of our community. As the philanthropic heart of rural healthcare, the Livingston HealthCare Foundation ensures that patients in Park County and beyond have access to advanced medical technology, essential equipment, and compassionate care, right in their own community.

Corporate partners like you make this possible.

We understand that choosing where to invest your company's resources is a meaningful decision. That's why we are committed to building thoughtful, customized partnerships that not only advance community health but also align with your business goals and values.

Through event sponsorships, program support, and annual giving, your business will gain year-round recognition and engagement opportunities across the Livingston HealthCare system. From patients and their families to staff and community members, your impact will be seen and felt by thousands throughout our region.

Together, we can ensure that every neighbor who walks through our doors receives the best care possible. We invite you to join us in shaping a healthier future for our community.
